

SEAM SECURITY BIN

SEAM SECURITY BIN

Fitting conveniently under any desk, SEAM's Security Bin ensures a strict chain of custody for hard drive and electronics media storage prior to data destruction being performed.

All of SEAM's Security Carts and Bins are lockable and tamper evident. They may be provided in advance of data destruction services to collect materials at your location, or they may be filled during an on-site pickup or shredding service for an extra level of protection and security.
