

SEAM SECURITY CART XL

SEAM SECURITY CART XL

SEAM's Security Cart XL has a 175 gallon capacity to fit all of your equipment storage needs. Despite the large size, the Security Cart XL can be easily maneuvered in any direction and fits through most doorways. Two of the caster wheels feature foot brakes to ensure the cart remains stationary, even on an incline.

All of SEAM's Security Carts and Bins are lockable and tamper evident to safely store and transport your company's electronic equipment. They may be provided in advance of services to collect materials at your location, or they may be filled during an on-site pickup for an extra level of protection and security.
